# JUL. PETERSEN COMPANY

FOUNDED 1865

709 Carroll Street : St. Louis, Mo.

## — QUALITY OF OUR SEED —

The quality of our seed is above reproach. We spare nothing—expense, time, or labor—to get the seeds that will satisfy our customers. We have served a market gardener trade for 55 years—a record that speaks for itself. So much depends upon good seed; to the market grower it spells the difference between profit and loss—success and failure.

## Make This Year a Profitable One by Using Petersen's Selected Seeds!

TERMS: Net Cash with Receipt of Order.

PRICES: F. O. B. St. Louis; Subject to Change Without Notice.

PACKING: Orders Are Packed for Shipping in Bags That Are Charged at Cost and Are Not Returnable. No Charge Is Made for Small Bags.

We give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any seeds, bulbs or plants we sell and will not in any way be responsible for the crop.

5 lbs. or more at 10 lb. Price. 25 lbs. or more at 100 lb. Price. Inquire for Special Prices in Larger Quantities.

## FIELD SEED

We handle a complete line of Field Seeds. Our location is to your advantage. We have our own cleaning plant. This enables us to give you the best seed at the lowest possible price.

### ALFALFA

It is the hardest, the most lasting, the most productive, the most efficient soil enricher and the Biggest Money Crop for every farm. It is one of the best known legumes.

	10 Lbs.	25 Lbs.	100 Lbs.
Kansas Non-Irrigated.....	\$1.90	\$4.65	\$17.50
Colorado-Utah .....	2.10	4.85	18.50
Oklahoma .....	1.85	4.25	16.00
Grimm Affidavit.....	2.30	5.25	20.00

### LESPEDEZA

An early drought resistant soil builder. The abundant growth, deep penetrating roots covered with nodules make Lespedeza an outstanding soil building legume. One of the best legumes for late pasture.

	10 Lbs.	25 Lbs.	100 Lbs.
Korean Ex. Fancy .....	\$1.20	\$2.50	\$ 8.50
Korean Fancy.....	1.10	2.25	7.50

### RED CLOVER

Splendid for hay, pastures, soiling and plowing under. Especially desirable for dairy cows on account of its high percentage of nitrogenous elements.

	10 Lbs.	25 Lbs.	100 Lbs.
Ex. Fancy.....	\$2.50	\$5.75	\$22.00
Fancy .....	2.30	5.35	20.00
Choice .....	2.00	4.85	18.00

### SWEET CLOVER

### KOHLRABI

After years of experimenting and testing we have finally obtained a variety of Kohlrabi which in our estimation is one of the best that can be produced.

In our trials every one that was transplanted, made a bulb, uniform in size, with leaves that are few and of the short type.

1-oz. - 35c    1/4-lb. - \$1.20    1-lb. - \$3.50

# LAWN GRASS SEED

**WHEN TO PLANT:** Seeding may be done to best advantage in the fall or early in the spring, but grass seed can be planted with good results at almost any time during the spring or summer months, and it is always well to have a little grass seed on hand to replant any thin spots on your lawn.

**NEW LAWNS:** When making a new lawn thoroughly spade and pulverize the soil, rake the ground fine and smooth, and at the same time it is advisable to work in some good fertilizer such as a mixture of pulverized sheep manure or Agrico or some other equally good fertilizer. Then, for best results, plant PETERSEN'S SELECTED LAWN GRASS SEED, 1 pound to every 200 square feet, rake the seed in thoroughly, keep well watered and roll it occasionally. Grass must have plenty of water, and rolling packs the dirt down around the roots and prevents their drying out when the weather gets hot.

**REJUVENATING OLD LAWNS:** To re-seed old lawns rake hard and thoroughly with a good iron tooth rake getting all dead grass and leaves away from the roots of the old grass; then sow the seed and rake it thoroughly. After that top dress the lawn with a good fertilizer.

**FILLING IN:** Be careful when filling in a lawn or top dressing with dirt that the dirt does not contain weed seed. Most dirt which is taken from prairies or vacant lots contains a great deal of weed seed. For a light top dressing it is much better to use pulverized sheep manure or Peat Moss and a good fertilizer rather than to fill in with dirt which may contain weed seed and spoil your lawn.

**PETERSEN'S SELECTED GRASS SEED** is a modern Lawn Mixture, the result of years of experimenting and practical sowing on all types of soil. It is composed of the strongest, finest, and most permanent grass varieties. Under favorable conditions it will produce a deep-rooted turf, luxuriant, carpet-like, and emerald-green from early spring through summer to early winter.
